Choose Read&Write Learning Assistance Tool

Select Dowload MAC Version

How to Install the MAC Version of Read&Write

- After clicking the download link...if it doesn't download automatically...
 - Click on the System Preferences icon
 - Go to Security & Privacy
 - Click the lock icon and enter your password to make changes
 - On the General tab under Allow application downloaded from select Anywhere
 - Click Allow from anywhere when prompted, then close the Security & Privacy window
 - You will now be able to run Read&Write. Once Read&Write has been activated, you can reset 'Allow applications downloaded from:' back to Mac App store and identified developers by following the steps outlined above.
- If prompted to download High Quality Voices, click Don't Ask. Your school or organization must provide high Quality Voices.
- Once the application opens you will see the Read&Write program as a toolbar on your screen.
- **To install it as an application program,** drag the file from your Downloads folder to your Applications folder
- Click Allow to accept incoming network connections. Clicking Deny may affect the program's performance.
