

LEWIS-CLARK STATE COLLEGE

Bachelor of Applied Science (BAS)

OVERVIEW: The Bachelor of Applied Science (B.A.S.) degrees at LCSC are designed for individuals who have completed an Associate of Applied Science (A.A.S.) degree and want to pursue additional education to strengthen their current or previous training and improve career advancement opportunities. In most cases, our B.A.S. students are currently working in their chosen technical field and the bachelor's degree will enable them to move into leadership positions within their industry. Select B.A.S. programs offer flexible scheduling opportunities for students, including online, hybrid, evenings/weekend, and condensed 8-week courses. Students will work directly with an advisor to develop a personalized curriculum plan that is designed to support their employment goals, as many plans are interdisciplinary in nature (i.e. consist of courses from multiple disciplines). LCSC accepts up to 50 credits from an A.A.S. degree and applies them towards the required 120 credit B.A.S. degree requirements.

It is important to understand that the B.A.S. degree does not identify a specific discipline major. Even though some plans may consist of courses from one discipline (e.g. communications, psychology, mathematics), the student is NOT a Communications, Psychology, or Mathematics major. Hence, the B.A.S. student's transcript and diploma will not indicate a specific major.

WHY CHOOSE A B.A.S.?

- Career advancement opportunities while developing credentials that enhance and expand your experience beyond technical expertise.
- Flexibility to complete your bachelor's degree while working full-time. The B.A.S. curriculum and delivery methods in many cases, can be designed to accommodate the adult learner.
- Personal Attention. With our low student-to-faculty ratio, your professors will know you by name. Faculty members are always available to help you achieve your success.

WHY LCSC? Lewis-Clark State College invites you to pursue a **better degree** at a **better price**, at a small, friendly campus that has proudly served students for over 125 years. There's a better way. **#TheWarriorWay** | Visit www.lcsc.edu to learn more!
