

LCSC: Social Work Program

Medical Documentation Requirements

The following documentation of vaccinations and tests are required for admission to the Social Work Program. Please take this document to your health care provider to ensure that you are completing the correct requirements needed for proof of immunization.

Students are not required to have health insurance. If you do have insurance, please upload your health insurance information to the Castlebranch website. This allows the program to communicate to your interning agency what, if any, coverage you may have in case of an emergency.

Note: All documentation must include the student's name, date of vaccines (if providing vaccines), provider and/or facility name or identifying information.

Titer

A titer is a blood draw that allows your health care provider to determine whether or not you are immune to the disease. It is not a vaccination. If the titer does not show that you have immunity to the disease you will need to have the vaccinations.

Measles, Mumps, Rubella (MMR) – Required

One of the following is required:

- 2 vaccinations OR
- Positive antibody titer for all three components (lab report required)

Tuberculosis (TB) – Required

One of the following completed in the last 12 months is required:

- 1 step TB skin test OR
- QuantiFERON Gold blood test (lab report required) OR
- T-Spot blood test (lab report required) OR
- IGRA blood test (lab report required) OR
- If positive results, submit a clear chest x-ray (lab report required)

Varicella (Chicken Pox) – Required

One of the following is required:

- 2 vaccinations OR
- Positive antibody titer (lab report required)
