Import RLDB Module for Students

To provide your students with the information and download link for Respondus LockDown Browser or Respondus LockDown Browser + Monitor, import the "Students: Respondus LockDown Browser (+Monitor)" module from Commons.

• Log into Canvas, and in the left-hand global navigation bar, select Commons.

• The "Students: Respondus LockDown Browser (+Monitor)" should display first as it is a feature item for our institution. If you do not see it, use the search bar.

• Click on the Commons item to open the content. You can preview the content here. When you are ready download, click Import/Download.

- Select the class or classes where you need the content. (You can import the module into multiple courses at one time).
 - Click on "import into Course". You will see a message that your import has started.
