

COVID-19 Infection Protocols

Fall 2022

Reported Case of
COVID-19
(symptomatic and
asymptomatic)

- Employees and students must isolate for 5 days from the onset of symptoms and, if symptoms have improved*, may end isolation on Day 6 but must wear a mask through the end of Day 10.
- People who are asymptomatic will isolate for 5 days from the date of their COVID test and, if symptoms have improved*, may end isolation on Day 6 but must wear a mask through the end of Day 10.
- Employees may work with HRS and supervisors to explore the feasibility of remote work during isolation period.
- Students may work with their instructors to determine how to participate in class or make up missed class activities.

Definitions:

HRS – Human Resource Services

*Improved symptoms include the person not having a fever for 24 hours without the assistance of fever-reducing medication.
